Subject FW: Benton Place Park Homes, Lower Harbor Drive work

Verneta,

The attached radiation survey provides results from work completed in the ROW of Lower Harbor Drive. There were no incidents to report regarding the levels of radiation.

The known 'hot spot' in Lower Harbor Drive is located south of the work that was completed. The work was completed in accordance with the City of Chicago Dept. of Environment procedures.

Please advise if you have any questions.

Kara

Eamon,

The attached Radiation survey pertains to sewer work completed under permit #0905877, issued on 9/10/09. Sewer work and radiation report were completed in one day, 9/14/09.

Please advise if you have any questions.

Kara,

Attached is the radiation survey form for the radiation monitoring performed on 9/14/09 at Lower Harbor Drive.

Let me know if you need any additional information.

Thanks,
Glenn Huber

Glenn,

I confirmed that the plumbers were able to secure a permit for the drywell work that will go in on Lower Harbor Drive. They plan to start digging on Monday, Sept. 14th around 9:00 a.m.

Let me know if you have any questions or concerns.

Thanks,

kara
